

REALITY'S GOLD STANDARD

The reality show that started it all continues as a Top 10 performer, consistently winning its time period. Set in the tropical, but treacherous far reaches of the South Pacific, **SURVIVOR: COOK ISLANDS** will have twists and turns, changing the face of the game. Unspoiled and isolated from the world, the perilous volcanic islands that contestants will call home are the perfect setting for the physical and psychological warfare that is **SURVIVOR**.
