MURPHY BROWN

Five-time Emmy® winner Candice Bergen returns to TV, ready to take on the Capitol's biggest offenses (or at least one of them). When she's tapped to anchor another news show, broadcast legend MURPHY BROWN seizes the opportunity to head back to the airwaves with the old *FYI* gang—and with a vengeance. But what to make of a world of round-the-clock information, social-media, fake news, and one very different political climate? Not to mention a field that employs her own now-grown upstart son, Avery Brown, too? From original creator and executive producer Diane English comes the comedy that proves when it comes to a good on-air verbal battle there's still nobody who trumps MURPHY BROWN.
